

Save Energy, Reduce Energy Costs and Improve Comfort with Energy Upgrade California Home Upgrade

Save Energy

Participating Contractors use their knowledge, experience and specialized equipment to deliver maximum energy efficiency.

Reduce Energy Costs

Complete a Home Upgrade as part of a home renovation project. Your incentives can help cover the costs of home improvements—and may help you save on energy costs each month.

Improve Comfort

Help family members with asthma and allergies possibly enjoy better indoor air quality and a more comfortable living environment with Home Upgrade improvements.

Talk to your Participating Contractor about financing options and tax credits available when you make qualifying home improvements through Energy Upgrade California Home Upgrade.

*Customers may also be eligible for incentives exceeding \$6,500 based on their calculated energy savings. Work with your Participating Contractor or rater to calculate your upgrade's incentive.

Energy Upgrade California® Home Upgrade provides assistance and incentives for home improvement projects that can reduce energy use and make homes more comfortable. This statewide program is managed locally by utilities and regional energy networks and directed by the California Public Utilities Commission in collaboration with the California Energy Commission. Funding comes from utility customers under the auspices of the California Public Utilities Commission. Incentives are offered on a first-come, first-served basis and are effective until the funding is expended or the program is discontinued. Terms and conditions apply. See program rules for details. Programs may be modified or terminated without prior notice. ©2016 Southern California Gas Company. Trademarks are property of their respective owners. All rights reserved.
