

HB 1375 - Replacement Parts for Damaged Motor Vehicles

Attention has recently been focused on the 2013 Maryland House Bill 1375, introduced by Delegate Mark N. Fisher (R-27B) which would inhibit insurers from specifying the use of aftermarket parts for the first five (5) years of the vehicle, and would prevent carriers from requiring the use of any specific process or vendor for the procurement of parts or materials. The Washington Metropolitan Auto Body Association (WMABA) assisted Fisher in crafting the language that was used to introduce the bill, and strongly support the efforts to see it passed into law.

To support this bill is easy! The bill is now before the House Economic Matters Committee. **The bill is HB1375 Motor Vehicle Liability Insurance - Replacement Parts for Damaged Motor Vehicles.**

If you feel strongly about supporting this bill you are asked to contact your Maryland state delegate **especially if they are on the House Economic Matters Committee** and urge them to vote **FOR** the bill. The first hearing on this legislation will be announced soon.

2013 Maryland House of Delegates – Economic Matters Committee
