

Rest Easy...

Cancer Survivors May Be Eligible for Preferred Status.

At Transamerica we think anything you can do to make a cancer survivor's life a little easier is the right thing to do. Take for example our newly enhanced underwriting guidelines. If your prospect has been disease-free of certain types of invasive cancers for ten years (and only five years disease-free of certain in situ cancers) then they may be eligible for preferred underwriting status.

Some important provisions:

- Best class status is not available
- Only certain cancers apply, such as non-melanoma skin cancers, thyroid, breast, testicular, endometrial and cervical cancer, benign but aggressive tumors, and more
- All cancers must have been treated surgically rather than with radiation or chemotherapy
- Appropriate surveillance and follow-up is required
