

Asset Management for Small Water Systems

Chandler, IN

July 8, 2015 | 9:00am - 4:00pm

Chandler Community Center
405 East Washington Street
Chandler, IN 47610

This workshop has been submitted to the state for Continuing Education Credits.

Contact: Dawn Nall, efcnall@gmail.com

Cost: ***Free. Registration required.***

Partner: Indiana Section AWWA

Please note: The workshop is free of charge, but all food and travel costs are the responsibility of participants, including the cost of any group food orders organized by EFCN.

The Smart Management for Small Water Systems program is administered by the Environmental Finance Center Network (EFCN), a university-based organization creating innovative solutions to the difficult how-to-pay issues of environmental protection and improvement.

Why attend?

Have you wondered:

- Am I spending revenue dollars in the best way?
- I can't do everything I would like to do with my system; how do I decide what is best for me to do?
- Am I providing the best customer service with the resources I have?

Asset management is one way to address these questions. In the current climate of increasing regulations, decreasing revenues, and decreasing water resources, an asset management approach is vital.

This workshop will provide you with tools to begin the process and understand the benefits.

This workshop is designed for water systems serving 10,000 or fewer people, especially targeting local government systems facing financial challenges. Owners of privately owned systems, consultants and technical assistance providers serving small water systems are also invited to attend.

Register online at efcnetwork.org/upcoming, or mail in the form below:
