## **January 13, 2016:** “Cyber Safety with Lori Getz!”

With more than 230 million Americans and 1.3 billion people across the world logging on, we can be sure the Internet is here to stay! Parents are concerned about what their teens are being exposed to and educators wonder how they will compete with the exciting and dynamic world of Instagram, Twitter, Vine, SnapChat, and YouTube.

There is a digital divide between teens and their parents and educators. Lori has developed a Cyber-Education program that spans K-12 and includes the education of parents to help bridge the generation gap.

The program can be instrumental in provoking conversations between parents and teens that ultimately lead to compromise and understanding, teaching both groups how the Internet can be a positive and vital resource if used correctly.

## **April 6, 2016:** “Pot, Prom & Promiscuity on Party Buses”

Hear from the J-Team of the Lost Hills Sheriff station.
