

Specification Drainage offers more ZS880 options

Zurn Specification Drainage is adding to the suite of options available to the ZS880.

In January of 2013 we released the –LB (lower body) option which is a secondary body that attaches to the ZS880 2NH outlet. The secondary body allows for attachment of a waterproofing membrane

-LB Lower Body Option

In February we released our drain connector series: the ZS880 with the ZS880-CS, ZS880-C45 and ZS880-C90. These are in-line connectors that allow the contractor to connect two or more ZS880 drains in series to cover a longer edge or wider perimeter. We also have our ZR880 Oil-rubbed Bronze drains here as well

ZS880-CS Straight Connector

ZS880-C45 45 degree Connector

ZS880-C90 90 degree Connector
