Calaveras Co. Animal Services Staff,

If Moxee could talk we suspect this is what she would say.

I have found a forever home with the Mentzel's, we just fit. Snickers, my new brother, is awesome. We take daily walks in the mountains. Did you know that I can dog paddle with the best of them & love the water. As you can see they provided me with two beds, one for the living room & one for the bedroom. Sometimes Snickers & I sleep together, or sleep in each others beds, he is one congenial fellow. Thank you for your friendship, walks & all around care you provided for me during my stay.

Also, I have Healthy Paws insurance & a sweet vet, named Dr. Amanda Rico. Down the road, they have let me know there is a place in Sacramento that will fix my legs, of course one at a time. You can consider me a success story, yea!

LOVE..... Moxee, Steve, Karen & Snickers
Mentzel

Note: Moxee had knee problems. The Mentzels's adopted her anyway and are going to have her knees fixed.
