

# South Asians in Texas

---

June 2010

MDF

This is by no means an exhaustive study of South Asians found in Texas. Most population figures are from the 2000 Census. There have been many more South Asians who have taken up residence in Texas since then.

This is only to show patterns of where South Asians are clustering. We hope that this simple presentation will help you and your church realize the people from around the world that the Lord has brought to your doorstep. May we all be faithful witnesses of that which he has entrusted us ...Sharing with those who have not heard the “ Good News”.
