Tulsa Orchid Society
The Tulsa Orchid Society would like to invite you to our Annual Spring Show Saturday, April 18th and Sunday, April 19th. This will be an American Orchid Society judged exhibit show, so there will be lovely blooming displays of exotic orchids. Additionally, we will have several new vendors as well as many of our regular favorites selling hundreds of beautiful blooming orchids to the public.

Admission is FREE!!! Hours are from 9-4 on Saturday and 10-4 on Sunday.

Orchid Society members will be present to answer questions, suggest a plant that should do well in your growing conditions, and we will have our society table with informative free plant care handouts and some great plant bargains. There will also be a limited amount of orchid society specially made orchid mix for repotting your plants for sale. But these supplies won’t last so be sure to stop by the show and get your orchids and growing supplies early! Come and scratch that green thumb itch with us in April! We hope to see you all there.

Northeast Chapter, Oklahoma Native Plant Society

The Northeast Chapter of the Oklahoma Native Plant Society will meet on Monday, May 4th, in the Ballroom of the Tulsa Garden Center at 6:30 pm. Snacks and desserts will be served at 6:30pm, followed by a brief business meeting at 7:00 pm. The program, "Montana: History, Beauty, and Big Sky Country" will be presented by Dale and Sue Amstutz. The meeting is open to the public.

Oklahoma Native Plant Society will join the Oklahoma Council of Garden Clubs in sponsoring the annual Wildflower Workshop on May 15-16, 2015. The event will be held at Southeastern State University in Durant, Oklahoma. Additional information, including registration, is available by visiting the ONPS website, oknativeplants.org.

Green Country Sierra Club

Green Country Sierra Club will meet on April 30th, 2015, at 7:00pm in Tulsa Garden Center Ballroom.

The program will be presented by Mike Langston, Assistant Director, South Central Climate Science Center, USGS. The South Central Center is one of eight regional Climate Science Centers funded by the Department of Interior through the U.S. Geological Survey. They conduct stakeholder-driven science in order to provide support for land managers and decision makers. The South Central Climate Science Center is hosted by a consortium institutions including the University of Oklahoma. Mike will discuss climate change and impacts specific to this part of the country.
