

JULY NEWSLETTER – 2015

PRESIDENT'S MESSAGE

For the past decade, the Genesee County Chamber of Commerce has earned a reputation as premier partner on travel trips to China. The Chamber has sent over 1,000 travelers to China to experience the culture and economy in the world's most populous country.

In keeping with the Chamber's tradition of offering educational travel experiences that you may not have considered previously, we are excited to announce our newest destination in 2016 – Cuba!

With the easing of sanctions and improving government relations, Cuba has become one the hottest travel destinations in years. Your Chamber has partnered with Chamber Explorations to offer a once in a lifetime trip March 2-8, 2016. Chamber Explorations is the premier travel company for trips to Cuba. Their knowledge of Cuba, experience and relationships they have cultivated there will ensure an amazing experience to truly one of the most fascinating destinations there is today. This is a trip that hasn't been available in the United States for over 50 years!

The trip is available through the People-to-People initiative which allows U.S. citizens to travel to Cuba on a limited basis to participate in cultural experiences and have direct contact with the Cuban people in order to learn more about them and their culture in a highly rewarding educational experience.

More information is available on the Chamber's Cuba trip as well as our other travel trips on our website at <http://www.geneseeny.com/trips> or stop by our office for a brochure.

Have a great month!
