

UCP of Metro Detroit

The goal of UCP/Detroit is to promote “Life without Limits” by working to advance the independence of all people with disabilities, supporting their right to self-determination and community inclusion.

The goal of Annual “Life without Limits through Assistive Technology” Conference is to provide access to information and resources to families and individuals with disabilities and to professionals.

“The mission of United Cerebral Palsy of Metropolitan Detroit is to advance the independence of all people with cerebral palsy and other disabilities while supporting their right to self-determination and inclusion through programs that focus on person centered advocacy, employment, assistive technology and independence. (adopted July 21, 2009)”

DoubleTree by Hilton Hotel Detroit-
Dearborn
5801 Southfield Expressway
Detroit MI 48228

Assistive Technology

Assistive Technology (AT) is any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified, or customized, that is used to increase, maintain, or improve functional capabilities of individuals with disabilities.

AT equipment gives people the tools to do things they might not otherwise be able to do, whether that is communicating spontaneously, controlling the environment, or being able to perform a job via a computer. AT is something we all use, but is critical for people with disabilities.

Feature Presentations

EXPO

The Expo will include vendors that can either provide assistive technology products or help you learn to navigate the process of obtaining assistive technology products.
