

Planned Parenthood

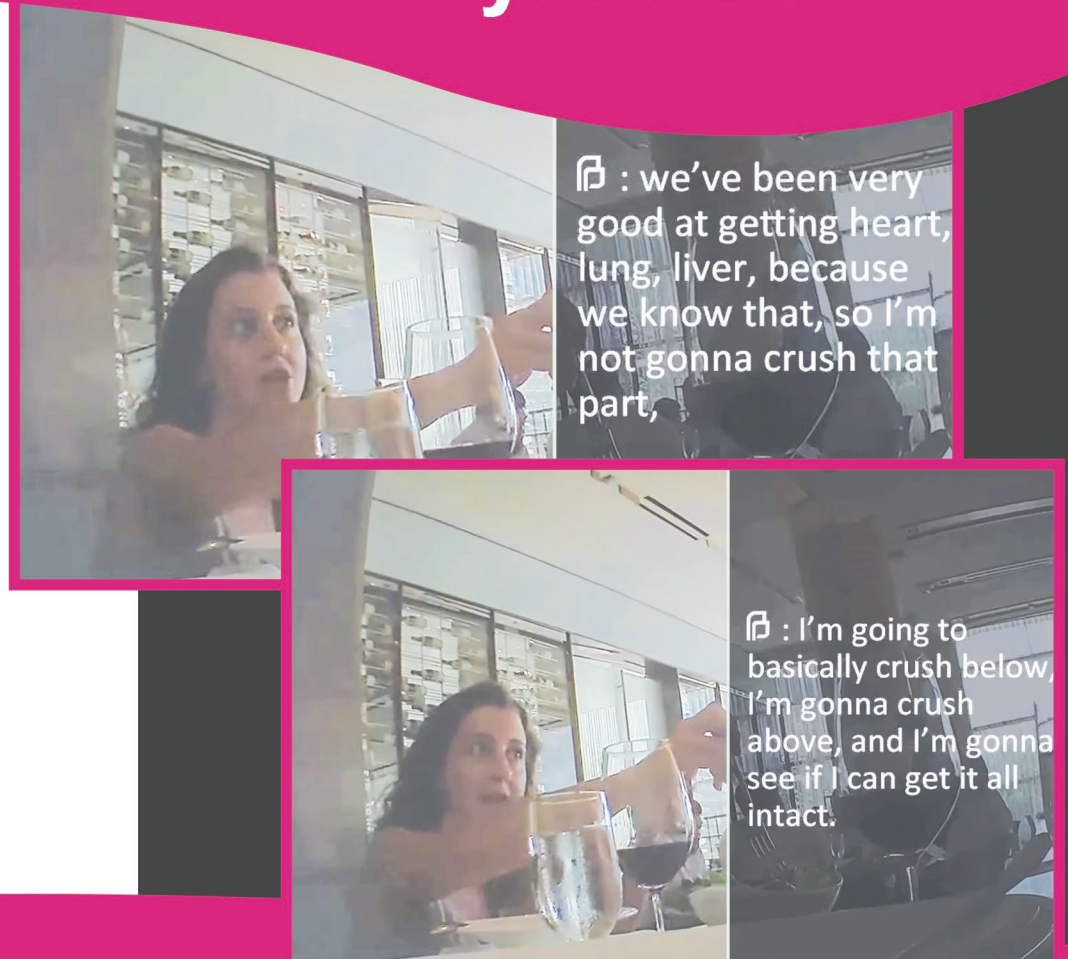

does not deserve
your vote

California legislators,

Before voting on any **Planned Parenthood** sponsored bill, especially **AB 775** and **AB 1177**, it is advisable that you review the newly released investigative report by the **CenterForMedicalProgress.org**.

Dr. Deborah Nucatola, **Senior Director of Medical Services** of the national Planned Parenthood organization, describes in graphic detail how she **procurs fetal body parts for sale**.

California voters are outraged by the **grisly, barbaric, and inhumane procedures** done at Planned Parenthood.

Vote NO on AB 775 - The state should not be mandating referrals to Planned Parenthood. Women in California deserve better.

Vote NO on AB 1177 - Women who undergo these risky second trimester abortions deserve immediate transfer to a hospital if complications arise during the fetal harvesting. **#PPSellsBabyParts**

The viral video has been seen by over two million viewers and has been picked up by news outlets throughout the state, nation, and even internationally.
