INTRODUCTION

SpeechControl4Mac is designed to control other applications with the SpeechMike in the Mac environment.

The software allows the assigning of different functions to each button, enable and/or disable certain features, and to control applications via hotkeys.

Even more advanced, you can easily control Dragon Dictate with a simple button clicks e.g.:

- Start and stop recording, selecting words and many more commands.

You can also reconfigure the SpeechMike according to your personal preferences and save the settings back to the device.

In case you have *misconfigured* the SpeechMike settings you can simply restore the default device configuration settings with a single click.

HIGHLIGHTS

SUPPORT OF SPEECHMIKE PREMIUM 'TOUCH'

SpeechControl4Mac 3.3 enables users to ...

- Configure their SpeechMike Premium Touch and to run firmware upgrades in Mac environments.
- Includes new images in the device view when a SpeechMike Premium Touch is connected and selected.
- Since the new SpeechMike devices include a touch sensor instead of a trackball the 'Trackball' settings have been renamed to 'Pointer' settings.

SUPPORT OF DRAGON DICTATE 5

SpeechControl4Mac has been tested to work with Dragon Dictate 5.

SUPPORT FOR MAC OSX 10.11 EL CAPITAN

SpeechControl4Mac 3.3 is tested and released with Mac OSX 10.10 Yosemite and OSX 10.11 El Capitan.

QUICK FACTS

GEARED FOR DRAGON DICTATE 5 FOR MAC

- Convenient control of Dragon Dictate 5 with the SpeechMike on a Mac
- Use most common Dragon Dictate commands out-of-the-box
- Mark and correct recognition errors with just simple button clicks
- Two recording modes for intuitive operation.
- Record LED indication during Dictation

CONTROL PRESENTATIONS

- Control presentations with your SpeechMike
- Jump to next slide of a previous slide just with a simple button click
- Regain the attention of your audience by “Clicking” the screen to black
- Enable the highlighter, cursor, or pen with the SpeechMike to point out specific issues

SATISFY YOUR NEEDS

- Adapt the SpeechMike according to personal working style
- Tailor SpeechMike buttons according to your personal preferences
- Control applications with just simple button clicks

SUPPORTED PLATFORMS

MAC PLATFORMS

SpeechControl4Mac 3.3 is tested with the following Mac operating systems:

- Mac OSX 10.10 Yosemite
- Mac OSX 10.11 El Capitan

For all listed operating systems, it is recommended that the latest service pack available is applied before installing SpeechControl4Mac.

SPEECH RECOGNITION SOFTWARE

SpeechControl4Mac works with the following speech recognition applications:

- Dragon Dictate 5

SPEECHMIKE

SpeechControl4Mac 3.3 supports following SpeechMike versions:

- SpeechMike Pro 3200 series
- SpeechMike Barcode 3300 series
- SpeechMike Premium 3500 series
- SpeechMike Premium Barcode 3600 series
- SpeechMike Premium Touch 3700 series
- SpeechMike Premium Touch Barcode 3800 series

Notes:

- We recommend to always upgrade the SpeechMike firmware to the latest available version. Please contact your local SPS support for more details.
- **SpeechMike II (LFH 52xx) and SpeechMike Air (LFH 30xx) devices are not supported.**
