What is the Medford Family Network (MFN)?

The Medford Family Network of the Medford Public Schools is a FREE universal (everyone welcome) parenting education and family support program focusing on the positive impact on the developmental process of children prenatal to age 8, and supporting the families that care for them. All adults who live or work in Medford, caring for young children, are welcome! This is accomplished through parenting education workshops; age-specific play and learn groups; new moms groups; home visitation; family events; a lending library; a family resource/drop-in center; information and referral services; family literacy activities; financial literacy information; and individual consultation. There are programs for dads, grandparents, single parents, parents who speak languages other than English; working parents; at-home parents; and more. Programs are held at a variety of sites around the city – weekdays, evenings and weekends. Many activities are co-sponsored with other family-serving agencies. Parent advisory, governing and leadership roles are available and encouraged.

Information & Referral Services

If you have questions or concerns about your child(ren), family, or want to know about community resources, you can always call on the Medford Family Network. Our role is to listen and help you find the information you need. Stop by the MFN Family Center at the Medford High School or call us at (781) 393-2106. We can make appointments to meet with you at the Center, in another location, or just take time to talk on the phone. Please let us know what is important for the healthy growth and development of you and your family. We are here to make a difference.

We are funded in part by:

Department of Early Education and Care Coordinated Family and Community Engagement Grant

Grant priorities are to: reach and meet the needs of children, especially those with multiple risk factors and/or are hard to reach, through universal and targeted outreach strategies; provide families with access to comprehensive services; provide evidence-based early literacy and family literacy opportunities; and provide families with support for continuity through early childhood transitions.

Children's Trust Massachusetts Family Center Grant

The Children's Trust helps parents navigate the joys and challenges of raising children. The grant priorities are based on the five protective factors that are the foundation of the Strengthening Families Approach: parental resilience; social connections; concrete supports in times of need; knowledge of parenting and child development; social and emotional competence of children. MFN incorporates all of these factors into its programming throughout the year in a variety of methods and activities.
