Inspire STEAM! Summer Camp for Girls

Is your daughter curious about the world around her and inspired to discover how things work? Inspire Girls Academy is hosting **fun-filled** exploration in a daily summer camp that provides fun filled hands-on exploration. Girls will build their **confidence, resiliency, inquiry and risk-taking** skills through project-based learning. **STEAM concepts** are implemented daily as a way of thinking, approaching problems, experimenting, and finding solutions. Our curriculum will provide literacy, motor, social, and self-regulation skills through **play, art, yoga, and more**. Our partners at **Tiny Tunemakers** will lead the music and movement activities.

Daily Activities	Benefits
Morning Meetings Daily Exploration Music & Movement Yoga & Mindfulness Community Building	The camp experience is designed to spark students' interests while developing foundational skills to give children the confidence to know that they can handle problems on their own. The daily explorations based on a STEAM concept will give your daughter's natural curiosity wings. The goal is for your daughter to become engaged in her own learning, inquiry, and discovery.
