Learn about Claude Monet as part of the workshop

The most consistent and dedicated of the Impressionist artists, and the first to experiment with open air painting.
Monet claimed that "color was my day long obsession, joy and torment".

Experience art with all of your senses

Every work of art is incomplete in itself, when we enjoy art we extend it, we improve it, and we make it our own.
Take that passion one step further - to another level of art appreciation.

The session will include a thirty minute overview of the featured artist followed by a ninety minute workshop.
Create your own masterpiece with step by step technical instruction and the highest quality art supplies.

We provide a snack - bring your favorite beverage

Remember to wear paint happy clothes

"Through the Eyes of the Artist" is a series of 30 artist biographical lectures and master inspired art workshops created by Felicia Zavarella Stadelman. Motivated by her own enthusiasm for art, coupled with her background in art history, this program has been designed to provide a richer insight through the artist's personal perspective.
