

Webinar Subcommittee Update

The webinar subcommittee is busy lining up upcoming offerings for our membership. On July 23rd at 2-3 p.m. Eastern there will be a webinar covering Medicare Advantage Plans, which is titled: “Considering Medicare Advantage Plans In Your Settlements” – presented by: William A. Delaney, Aaron Frederickson, and Roger Larue. In August, we anticipate holding a timely webinar on ICD-10, which will be presented by Fran Provenzano and Marci Moorehead. Following August’s webinar, as soon as dates are ironed out, there will be a second webinar in the Evidenced Based Medicine (EBM) series.
