

Magnetometer, Sidescan and Sub-Bottom Training

April 20th-22nd, 2015

Charleston, SC

On April 20th—22nd, 2015, HYPACK®, Inc. will hold a Magnetometer, Sidescan and Sub-Bottom Training in Charleston, South Carolina. Day 1 will focus on the use of Magnetometers within HYPACK. Topics covered are hardware selections, magnet.dll, position of a mag during survey, data collection, and processing, and the creation of final products. Day 2 will focus on the use of Side Scans within HYPACK. Topics covered are side scan hardware, data and processing using both SSTM and GEOCODER in HYPACK, and also the creation of final products. Day 3 will focus on the use of sub-bottom sonars within HYPACK. Topics covered are sub-bottom hardware, subbot.dll, configuring the analog sub-bottom interface, data collection, processing and creating final products.
