1:30 pm Workshop 2: The Implication of Evolution for Christian Life

Sister Ilia Delio, O.S.F., is the Director of Georgetown University’s Catholic Studies Program. Previously she was a Senior Research Fellow at the Woodstock Theological Center. She has a Ph.D. in Historical Theology from Fordham University, and a Ph.D. in Pharmacology from Rutgers University-New Jersey Medical School.

Her work bridges the spheres of science and religion, and explores how insights from evolution, ecology and technology are influencing the shape of human life today. She brings humor and clarity to “evolutionary” theology and helps audiences understand advanced physics while maintaining a spiritual connection. You will be surprised, challenged, and entertained.

Delio is the author of 15 books including *The Unbearable Wholeness of Being: God, Evolution and the Power of Love*; and *From Teilhard to Omega: Co-creating an Unfinished Universe*.
