

Landscape Design Service

As a designer I find the creative process an exciting adventure and unique to every project. A natural extension of creating container gardens is to apply that same attention to detail and artistry as well as my strong horticultural background to landscape designs.

Specializing in smaller gardens, I design elegant and functional outdoor living spaces to suit your lifestyle, whether your preference is for a low maintenance courtyard, a wildlife habitat or a romantic English garden.

With assistance and guidance in meeting the requirements of Home Owners Associations, selecting professional companies to assist you in installation and selecting the perfect finishing accents such as art work, I will be with you every step of the way.

Call or email to set up an initial consultation to start this journey together.
