

# Join Us

for a day filled with food,  
fun & fabulous machines!

## SCHEDULED EVENTS

10:00am - 3:00pm

Workshop

(See attached schedule)

Noon

Lunch

4:00pm

Celebration Starts

Demonstrations  
from companies  
serving the wood,  
glass, flooring,  
& logistics  
industries!

- Specialty Equipment Demonstrations
- Bavarian Food & Drinks Provided
- Rides will be provided to and  
from the World Congress Center  
for GlassBuild Attendees
- Shop Tours All Day

**CLICK HERE  
to Register**

**For a FREE  
STEIN!**

First 100  
to sign up for  
a workshop  
receive an  
authentic  
Oktoberfest  
1 liter stein.

# Automationfest

Sept 17th, 2015

**GRENZEBACH**

10 HERRING RD, NEWNAN, GA 30265

For more information call *Christine Schneider* at (770) 254-5032  
or email her at: [Christine.Schneider@Grenzebach.com](mailto:Christine.Schneider@Grenzebach.com).

# Schedule

10:30am	Georgia Tech	<b>When am I lean enough to Automate</b> Discussion on the process of creating a lean production environment as a precursor starting to look at automation
10:30am	Keyence	<b>The future of laser printing</b> The newest developments in lasers for labeling and inscribing
11:30am	Festo	<b>The new world of drives - how do pneumatic drives compare to electric?</b> Understanding pneumatic drives and how they compare to traditional drives in a manufacturing environment
11:30am	SEW Eurodrive	<b>Decentralized technology</b> Realizing an economical automation concept means implementing decentralized systems throughout the system, eliminating long rows of control cabinets with complex wiring, expansive space requirements, and long distances between control cabinet and motors
12:30pm	<b>German-style lunch buffet</b>	
12:30pm	Cognex	<b>3D vision - profiling inspection systems</b> How topographical profiling is changing the measurement inspection game
1:30pm	Kuka	<b>Integrated robotics - Interactive robotics</b> How robotic technologies have developed to allow operators to work hand in hand in a production environment
1:30pm	IFM efector	<b>Predicting the future with real time vibration monitoring</b> Seminar on vibration monitoring technologies, how they compare and how they can be implemented to reduce down-time energy consumption
2:30pm	Allen Bradley	<b>Manufacturing intelligence systems - What to do with all the data</b> Manufacturing intelligence frees the data currently locked within your control and business systems. Used correctly this data can produce the kind of actionable information that will help improve plant productivity and overall equipment effectiveness, saving time and money
2:30pm	Grenzebach	<b>AGVs and mixed palletizing solutions for the future</b> How our clients are using AGVs and mixed palletizing to revolutionize their packaging processes
3:30pm	Millennium	<b>Establishing safety zones to maximize manufacturing efficiency</b> Machine safety overview of applicable regulatory standards to create safety zones in automation equipment, increasing overall efficiency while mitigating risk to personnel
3:30pm	Grenzebach	<b>Conveying without conveyors</b> Discuss control solutions in the field of Electrified Monorail Conveyors (EMC), Industrial Floor Conveyors, Floor Transportation Systems, Inductive Power Supply and related technologies
4:00pm	<b>Oktoberfest celebration with beer keg and much more</b>
