Is your child between 8 and 12 years of age?

Your child may be able to be involved in an exciting study. This study is looking at heart rate and breathing when children are completing memory and problem solving tests.

- Your child will get to complete tests on a computer in a fun environment.
- For your child’s participation, you will get a $25.00 gift card to Target or Wal-Mart for your first visit, and approximately $10.00 for each subsequent visit. Your child will get a small prize for participating.
