Nowadays, everyone is connected using the internet whether it is through your smart phone, laptop, desktop, or tablets. Even though there is plenty of good information out there, if you're not careful, it could lead you down a dangerous path. Some of the most predominate dangers are cyber bullying, predators, and identity theft.

Through this training, we hope to promote good online habits and teach **youth with disabilities** about the potential dangers that are out there. This training is **designed especially for youth with disabilities** between the **ages of 16-26**. We hope to see you there and encourage you to **bring your devices**.

PROVIDED FREE OF CHARGE BY
