The transition from pediatric care to adult health services is a critical time for YSHCN and can be challenging for families and youth alike. The Smooth Move to Adulthood Workshop explores tools and strategies that can help families get ready for this important transition. This interactive program will provide expert recommendations on youth health transition (YHT), identify key community programs and resources which support transition activities, and offers an opportunity to dialogue with expert parents and clinicians. Come and explore the why, when, and how of YHT Planning. Join the conversation - bring your ideas and questions!
