

#TogetherWeCan Live Well

Living with kidney disease?

Whether your treatment is dialysis or you've had a transplant, we want to hear about how you enjoy life. #TogetherWeCan is a national campaign focused on sharing how members of the kidney community across the country are living well. Tell us your story and be part of a video highlighting success stories of people affected by kidney disease.

- Have your voice heard!
- Inspire others with your experience.
- Entry is open to dialysis patients, transplant recipients, care partners and renal professionals.
