MEMBERSHIP INVITATION

P.O. BOX 988 LONE PINE, CA 93545

Lone Pine Pheasant Club (LPPC) invites you to join one of California's finest upland game bird hunting preserves. A great opportunity to carry on or start a family tradition of hunting and outdoors activities in the beautiful Eastern Sierras is yours with a membership to LPPC.

Memberships are on an annual basis, running from June 1st to May 31st, with members hunting on 700+ continuous acres of diverse, quality managed rangeland with a variety of premier grasses and brush cover. There are five designated hunting zones onsite, each 120+ acres, and one hunting area located near the airport with an additional 100 acres of level terrain especially suited for training inexperienced dogs. Starting in May until the middle of October, members are welcome to run and train their dogs in our fields. LPPC is a state-licensed game bird club but all hunters will need to possess a California hunting license.

From October 14th to April 9th, LPPC will release ring-neck pheasants and chukar partridges, and you may begin to harvest birds off your membership account. Once your bird allotment has been exhausted, additional birds may be purchased (\$36 for pheasants and \$23 for chukar). Up to four guns are recommended per field, however special arrangements can be made to accommodate more hunters at the time a field is reserved. **With membership, you can reserve a field in advance, ahead of everyone else!**

All hunts include coffee and lemonade served all day at the clubhouse. As well on all hunts, members are welcome to a complimentary lunch with those unforgettable LPPC biscuits! Value will be added to all harvested pheasants through an exchange program which will allow members an opportunity to swap birds for pheasant delicacies such as pot pies.

Lone Pine Pheasant Club will endeavor to accommodate member requests for any style of hunting by offering wide-ranging personalized services. All facilities will be available to rent for private parties and business development functions. There is year-round fishing at Diaz Lake and the Owens River which are only minutes from LPPC's clubhouse. If you wish to combine this pheasant hunt with a hunt for some other native game we will gladly make suggestions of areas open to the public. Private and public campgrounds for campers and RV's, both within a couple miles of our club, are open year round. **Or stay at the clubhouse in our adjacent RV parking area.**

Join a couple of long-time members hunting pheasants in the spectacular Eastern Sierras!
