

FOR IMMEDIATE RELEASE

PENTAIR LAUNCHES HYPRO® FENCE ROW CONTROL

NEW BRIGHTON, MIN. — January 12, 2016 — Pentair Ltd. (NYSE: PNR) announced today the launch of the Fence End Row Control, a switch box designed to easily turn on and off up to two valves at the same time.

“We have developed a new switch box and cables that enable the easy retrofit of sprayers with a fence row system. The two toggle switch box is added to the cab plugged into the battery and ProStop-E valve to create a plug and play fence row system addition,” stated Wayne Steward, Hypro Product Manager.

Hypro’s Fence Row Control utilizes the award-winning Hypro ProStop-E 12 volt actuated valve, which eliminates misapplications and waste by providing instantaneous on/off control. The switch box can control up to 16 ProStop-E valves with a 4A amp rating.
