

Deeper STEM Learning Through Metacognitive Conversation: a Reading Apprenticeship Workshop

How are literacy, metacognition, and STEM content knowledge related? This highly interactive workshop will engage participants in metacognitive conversations centered on complex disciplinary texts that defeat many students. By discovering and reflecting on their own ways of unlocking STEM graphs, charts, illustrations, and problems, and so forth, participants will experience ways the Reading Apprenticeship approach helps students master core concepts and helps instructors explicitly support academic literacy in their discipline.

Fullerton College
Room 312
321 E. Chapman Avenue
Fullerton, CA 92832
