

Greetings!

My name is _____ and I am a constituent of Senator _____. I am calling today to ask Senator _____'s support for rural health programs. As a patient with a heart condition, I ask that you support access to vital life-saving emergency devices in rural communities. These devices not only provide a safety net for persons with conditions that pre-dispose them to sudden cardiac death, but also ensures the safety of all citizens in our community.

Please show your support by signing onto the letter written by Senators Conrad and Grassley, co-chairs of the Senate Rural Health Caucus. This letter does not specify an amount for the program but simply asks for its continued support for a number of rural health programs including the Rural and Community Access to Emergency Devices Program. Please sign the letter by calling Dana in Senator Conrad's office at 202-224-2043 OR Rodney in Senator Grassley office at 202-224-3744. I appreciate your consideration of the many patients and their families in this country currently living with heart conditions.
