

CareDox

FAQs

Who is CareDox?

CareDox is a patient health information platform focused on care coordination between parents and schools

Can I fill out my forms on the phone, tablet or computer?

Absolutely! CareDox is built where you can fill out forms from any smart phone, tablet or computer. We recommend Chrome as a secure and fast web browser.

How does CareDox ensure privacy and security?

CareDox maintains the strictest standards of privacy and security. This includes storing and transmitting all protected information in an encrypted format and maintaining an environment compliant with HIPAA and FERPA standards.

What will I need when filling out forms?

- An up-to-date immunization card
- Physician contact information
- Physician medication order forms
- Special Condition Care Plans

Required forms will be available for download in the Required Documents section or the Non-Required Documents section.

How long will it take?

Most people finish their forms between 5 and 15 minutes from starting, but don't sweat it if it takes longer. You can always use the "Save and Continue Later" button at the top of your screen to save the form and return when you have more time!
