

## Continuing to *serve you*

Dear Brevard Neighbors,

More than 70 years ago, dedicated and compassionate individuals made a commitment to localize healthcare. Since that time, we have had the privilege of providing essential healthcare to meet the needs of Brevard.

As Brevard's hometown, not-for-profit community healthcare system, Health First cannot fulfill our sacred trust without your support. We strive each day to achieve our mission and provide exceptional care to every person, every time.

We are honored to have the ability to continue to provide support to our community in many tangible ways. In total for 2015, counting all contributions we made to other organizations and our direct charity and uncompensated care, Health First provided more than **\$129 million of community support to Brevard.**

Our fully Integrated Delivery Network has more than 8,000 caring associates, 1,200 credentialed clinicians and 1,600 volunteers who care and are dedicated to improving your health and wellness.

Your generosity, commitment and support have made this possible.

To learn how you can continue the tradition of caring for your hometown, not-for-profit community healthcare system, please visit [HFgive.org](http://HFgive.org).

Thank you for allowing us to serve you.

Sincerely,  
Steven P. Johnson  
President/CEO  
Health First
