Introduction to the Prairie Climate Centre

This presentation will provide an overview of the Prairie Climate Centre, a collaboration of the University of Winnipeg and the International Institute for Sustainable Development, and its flagship data product: the Prairie Climate Atlas. The Prairie Climate Centre was established to disseminate climate change data products and assist the public and private sector with climate adaptation initiatives.

The Prairie Climate Atlas provides users with high-resolution visualizations of projected climate changes, and should be of interest to a wide variety of resource management professionals.

Climate model projections for the prairie provinces suggest that water resource management may become increasingly challenging in the coming decades, as the region's hydroclimate changes in some very important ways. The case for concern will be presented, as will the case for stakeholders to become engaged with the new Prairie Climate Centre.

NOTE: Following this luncheon presentation, CWRA MB Branch will host its Annual General Meeting. All members welcome to attend.

This luncheon presentation is eligible for 1.0 credit hour of professional development with Engineers Geoscientists Manitoba (EGM). The Manitoba Association of Landscape Architects (MALA) also considers this luncheon as a continuing education opportunity.

May 12, 2016
12:00 NOON Holiday Inn South
1330 Pembina Highway

FEATURING GUEST SPEAKERS:

Dr. Henry David Venema, P.Eng(Ont.)
**Director of Planning, Prairie Climate Centre
International Institute for Sustainable Development**
Dr. Danny Blair
**Scientific Director, Prairie Climate Centre
Associate Dean, Faculty of Science
University of Winnipeg**

CWRA MANITOBA BRANCH EXECUTIVE

Eric Blais - President

Stephen Carlyle - Vice-President

Melissa Haresign - Secretary

David Fuchs - Treasurer

Carly Delavau - Past President
