

# We Want your Input and Ideas

You are invited to provide input about possible future improvements to South Suburban Golf Course Clubhouse. Help us make it better!

South Suburban Parks and Recreation has hired Barker Rinker Seacat Architecture of Denver to develop a master plan for South Suburban Golf Course Clubhouse. The intent of the master plan is to identify renovations to the clubhouse that will meet the current and future needs of our golfers and other user groups. Information gathered during this process will assist the Board of Directors in prioritizing possible future improvements. For more information please contact Melissa Reese-Thacker, Senior Park Planner, at [MelissaR@ssprd.org](mailto:MelissaR@ssprd.org) or 303-483-7023.
