

School Newsletter Announcement Idaho Dairy Council Foodservice Grant Recipient

We are excited to announce that Food & Nutrition Services at Borah High School has been chosen by the Idaho Dairy Council (IDC) to receive a Dairy Does Good Foodservice Grant!

The grant will allow our food service team to purchase a salad bar which will benefit students and aid in providing nutritious school meals.

The program is made possible through generous funding from Idaho dairy farm families, and the IDC is a long-time supporter of the National School Lunch and School Breakfast programs and supports schools in Idaho through a variety of ways. We are looking forward to creating variety in our dairy offerings, which has proven to have excellent health benefits, and helps students succeed in school.
