

WHERE IS MY TRAINING?

Have you been wondering why your personal profile doesn't reflect your online training courses that you have taken? Chances are that your BSA Member ID number is not connected to your MyScouting account.

The online training process "talks" to our Scoutnet computer system, updating a personal profile if your ID number and your registration within the Hawk Mountain Council are linked.

In order to link them, you will need to sign in to your MyScouting.org account. On the left hand side of the home page, click on the MyProfile, Update My Profile link. The next screen will have a section titled Membership Info. You will go to Select a Council and using the drop down arrow, choose Hawk Mountain Council # 528. Then enter your identification number in the Member ID section. Your personal ID number is located on your BSA membership card between the two * symbols.

By clicking the ADD button, you will connect these two together.

If you have any problems with this process, please feel free to contact us at the Beaver Family Service Center by calling 610-926-3406.
