

SUN 'N LAKE

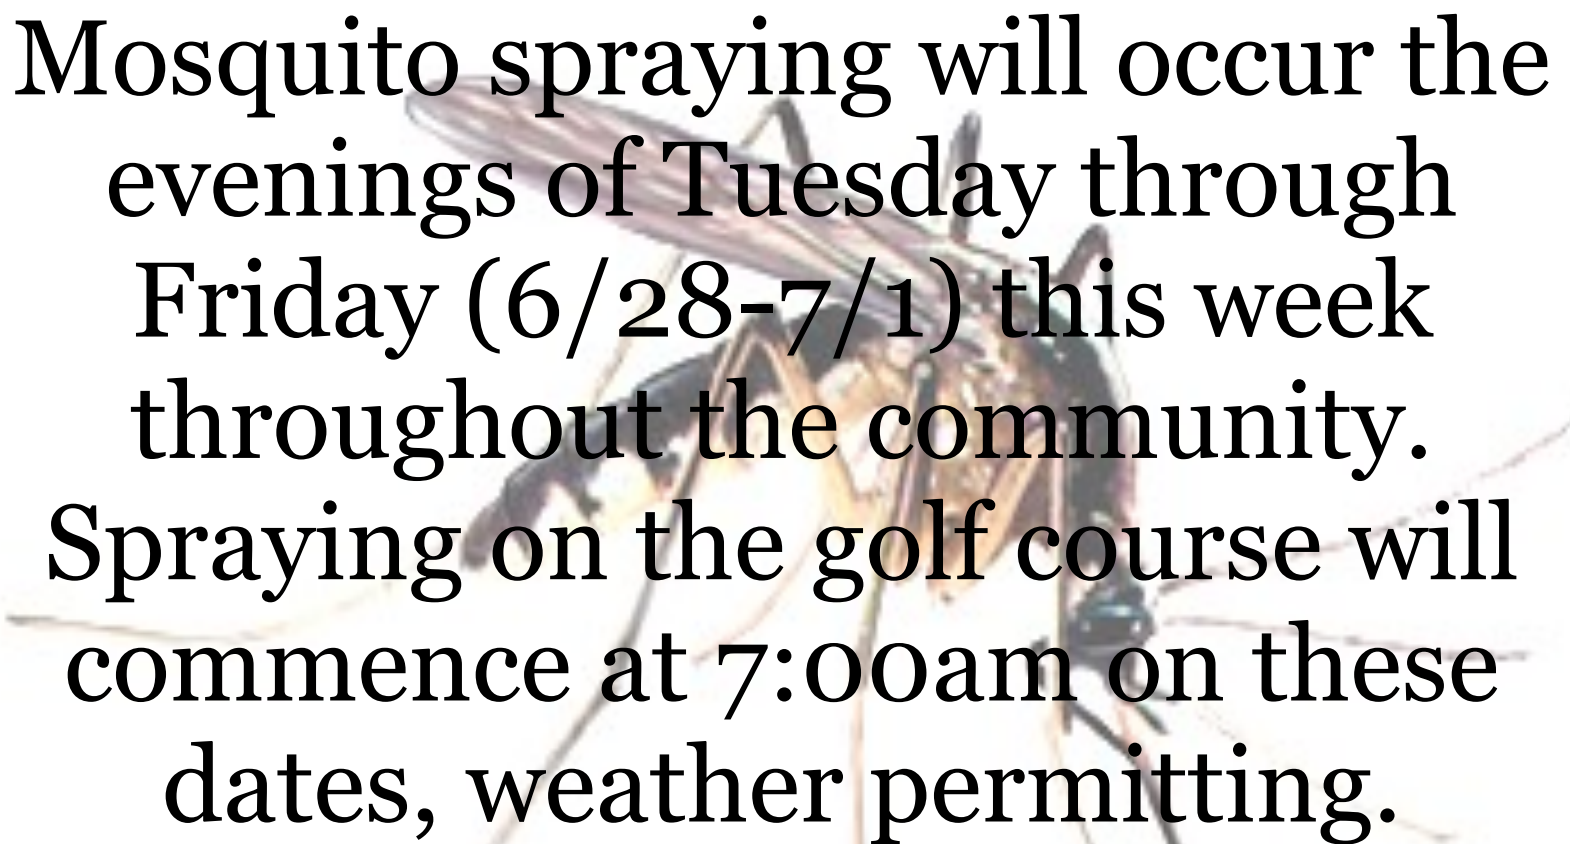

GOLF & RECREATION

Mosquitoes

As concerns about the ZIKA VIRUS grow, we'd like to take the opportunity to make you aware of what Sun 'n Lake does to help control our mosquito population in the District. Summer is always a wet time in our area and any standing water is prime breeding grounds for mosquitoes. While the District has a few nifty methodologies for managing mosquito populations, our best asset is you. So how can you help? First, make certain that any containers that may hold water either have holes drilled in the bottom to release any water that may accumulate, remove them from areas where they may capture rain or irrigation water, or flip them over. Second, and unfortunately, you are one of the mosquito's primary targets so we need to hear from you when they are bad in your area. While we send our human guinea pigs out to perform landing rate counts, we only perform those on weekly rotations and cannot necessarily identify individual areas of concern. Finally, if you have a ditch or depression with stagnant water, let us know and we will come and treat the area for mosquito larvae. If you walk into your yard and are inundated with mosquito bites, please let us know. However, if you spend 30 minutes outside watching a beautiful sunset and only get bit once, we're probably doing a pretty good job!

If you have other concerns about mosquitoes and the ZIKA VIRUS, please go to www.floridahealth.gov/diseases-and-conditions/zika-virus/ for more information. Please call 382.2196 if you have any questions.

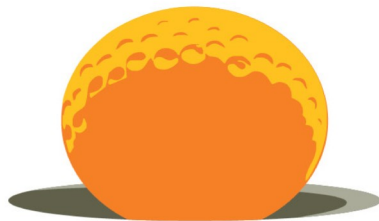

Mosquito spraying will occur the evenings of Tuesday through Friday (6/28-7/1) this week throughout the community. Spraying on the golf course will commence at 7:00am on these dates, weather permitting.

Please call the Sun 'n Lake District Office with any questions (863)382-2196.

Ponce De Leon Sidewalk Project

For those of you who live along or frequently travel down Ponce de Leon within Sun 'n Lake Improvement District, you have probably recently noticed construction crews working alongside the road. A few months ago, the Sun 'n Lake Board of Supervisors approved a sidewalk being installed from Nadena Drive to Adrian Street. There were growing concerns for the safety of children and residents who frequently use Ponce de Leon as a route to walk to school or to walk / run.

This project should take a few months to complete. If you have any questions, please call 382.2196 or email chardman@snldistrict.org.
