

# CAPES

Cornell Center for Materials Research

CCMR Career Advancement Program for Engineers and Scientists

## New Course for Physical Science and Engineering Grad Students

***...because it is war out there!***

Includes  
Leadership Training  
Saturday, Sept. 5  
10 am - 3 pm

**Practical training** in elevator pitches and proposals, the art of scientific presentations, and clear and effective scientific writing. Students will learn to articulate the broader impacts of their research, in part through involvement in K-12 outreach. This course will aid in the development of competitive graduate fellowship applications.

**Chem 6030 (2 credits): Weds at 3:35 pm in Clark 701**

Limited enrollment. You must attend first class session on 8/26.
