

How WIPA can help?

Community Work Incentives Coordinators, CWICs, address employment barriers by educating beneficiaries and their advocates/professionals and supporting the various federal and state work incentives

- Counseling beneficiaries to understand in *their individual situation*
  - SSA benefits
  - Healthcare
  - Housing and work incentives
  - Other federal and state benefits and incentives

Community Work incentives Coordinator can provide thorough, timely and accurate information, a variety of benefit scenarios, and facilitate the beneficiary to make informed choices about work, benefits, and financial stability, and as a result, the SSA beneficiaries with psychiatric disabilities will be able to:

- Develop economic security and the ability to support oneself and/or family
- Develop assets and achieve financial goals and
- Achieve a higher socioeconomic status

If you are one of the many SSDI or SSI disability beneficiaries who want to work, a WIPA project can help you understand the employment supports that are available to you and enable you to make informed choices about work and achieving financial independence.
