## New Year, New Equipment

Get the tools you want for a price you need

### HDO4000 High Definition Oscilloscopes

**HDO4054** 500 MHz, 4 Ch, 2.5 GS/s

**HDO4104** 1 GHz, 4 Ch, 2.5 GS/s

**HD4096 high definition technology** (12-bit ADC and low noise front end) with long memory, powerful debug tools, and mixed signal capability (optional) in a compact form factor with a 12.1" wide touch screen display. And now **I2C, SPI, UART, RS-232, CAN, CANFD, LIN, and FlexRay Trigger and Decode, Power Analysis and Spectrum Analysis for free.**

**Starting at \$14,175**

### WaveSurfer 3000 Oscilloscopes

**WaveSurfer 3054** 500 MHz, 4Ch, 4 GS/s

**WaveSurfer 3074** 750 MHz, 4Ch, 4 GS/s

The **same MAUI advanced user interface** used on our high performance oscilloscopes with touch screen simplicity providing quick access to time-saving debug tools. Now with **Function Generator, DVM, I2C, SPI, UART, RS-232, CAN, CANFD, LIN, and FlexRay Trigger and Decode for free.**

**Starting at \$6,950**

### WaveJet Touch Oscilloscopes

**WaveJet 334T** 350 MHz, 4Ch, 5 Mpts/ch, 2 GS/s

**WaveJet 354T** 500 MHz, 4Ch, 5 Mpts/ch, 2 GS/s

The WaveJet Touch is **on and acquiring signals in less than 5 seconds**, enabling measurements to begin immediately. The compact design features a 7.5" touch screen, providing the convenience of touch operation in a portable design.

**350 MHz for \$4,200 | 500 MHz for \$5,000**
