

# The Community Emergency Response Team (CERT) Program

educates people about disaster preparedness for hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations.

Using the training learned in the classroom and during exercises, CERT members can assist

others in their neighborhood or workplace following an event when professional responders are not immediately available to help. CERT members also are encouraged to support emergency response agencies by taking a more active role in emergency preparedness projects in their community.

## Our Community Emergency Response Team

### New Class Members

BSIA is proud and fortunate to have so many BSI community members trained in the CERT program. It is important to know your CERT team so we have identified the following trained BSI members:

Armstrong, Robert  
Bell, Bud  
Hillebrand, Paul  
Lemming, Jack & Eileen  
Martinson, Francine  
Mantz, Arlan & Barbara  
Perkins, Jayne

From an earlier Class:

Bareither, Bill  
Campion, Bill  
Petrosino, Chick & Angela  
Sabatino, Joe & Anita

If you know of any more who have been trained in the past and we have missed them here, please let your Security Director, Don Clark, know so we can include them and give them recognition. Future classes will be held by the PGFD and it is highly recommended more residents of BSI attend. The life you save could be your own or a neighbors.

[Don Clark, BSIA Security Director](#)
