## *Taking a cruise???*

Many of the major cruise lines have now partnered with Bags to provide Luggage Valet Service. For a low fee, Luggage Valet will take your bags from the port on day of disembarkation and you will not see them again until you arrive at your home airport! You will receive airline luggage tags and your Boarding Pass so you simply get off the ship, go to the airport and head directly to security. No more standing in line to check your bags.

Your cruise ship will provide information to you during the cruise regarding this service if offered. Easy Access Travel strongly endorses this service and encourages you to use it. It will *Make Travel Easier*. We Love It!!!
