

The RemPhos Merlin X1 LED Table Lamp

5/18/2015

RemPhos **Merlin X1** LED Table Lamp

Features

- Reduce energy consumption from 60W to 8W.
- Equivalent brightness to a 60W incandescent desk lamp (1300lux @ 1ft).
- Permanently fixed LED light engine (can not revert to older, higher wattage bulb).
- LED light engine which outputs uniform illumination (without LED spots) in an extremely thin profile.
- Ergonomically controllable 4-step dimming for further energy reductions.
- Beautiful, modern design that will look comfortable in any environment.
- Eco-friendly manufacturing and packaging.
- A platform for companies to promote their brand.

RemPhos **Merlin X1** LED Table Lamp

Specifications

- Wattage: 8W
- Lumen Output: 480lm (1300lux @ 1ft)
- Input Voltage: 100-240V AC
- CCT: 3000/3500/4000/4500K (4500K standard)
- CRI: >82
- Accessories: Built-in 5V USB charging port on rear
- Temp Range: -20 to 60C
- Net Weight: 1.7lb
- Material: CNC machined out of aircraft grade aluminum alloy
- Aluminum is polished, sandblasted, and coated with a high brightness anodized treatment for durability
- 3 part modular construction for easy assembly and disassembly as well as compact packaging
- 4-step dimming function controlled by a capacitive touch surface button system
- Dimming range: 100% down to 5%
- No flicker, no IR, no UV, no Hg

Safety and Performance Certifications:

ETL Listed for US and Canada

Energy Star Listed as a LED Fixture

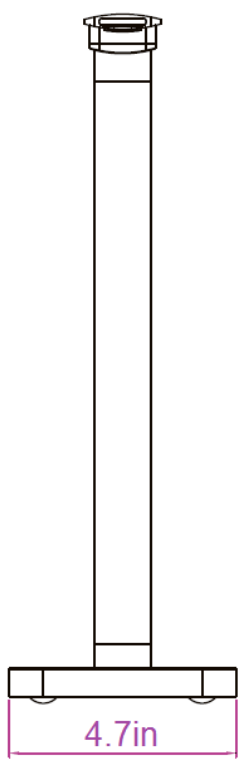

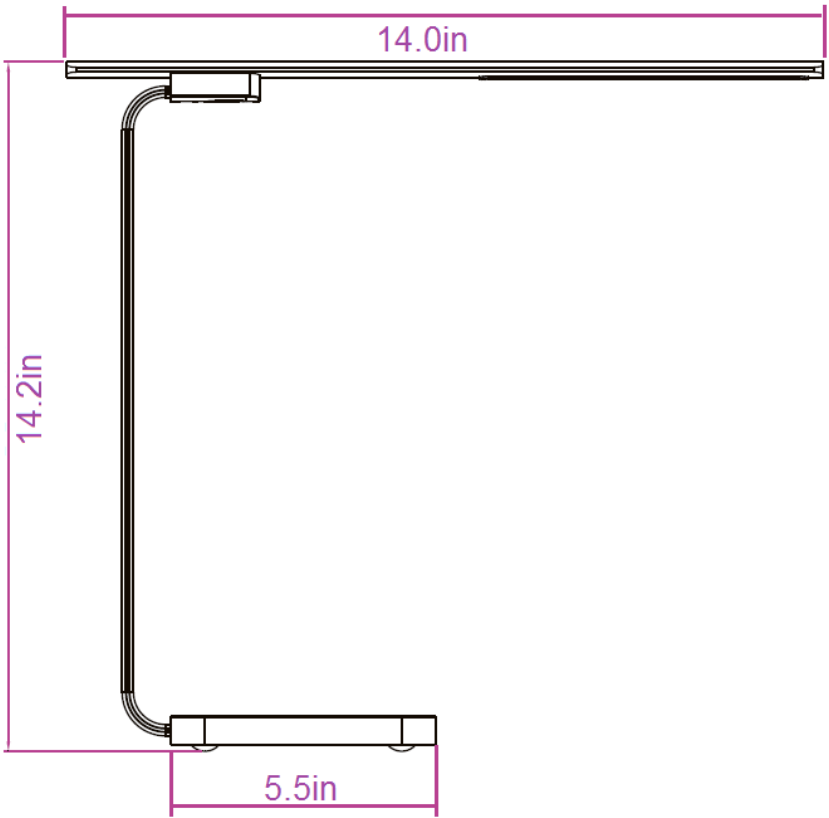

FCC Tested and Approved
