# *How a Mattress Wears Down*

- *Mattress Sets do not evenly wear out, but degrade over time from top to bottom.*

- *Even after many years of use every night, the innerspring unit and primary upholstery layers can last up to 20 years.*

# *Frequently Asked Questions*

**Q: What if my mattress is sagging in the middle?**

*A: In almost every case when a mattress is sagging in the middle the upholstery materials have worn down to a fraction of their original density.*

**Q: How long does it take to renew a mattress?**

*A: Our mattress professionals can renew a double queen room in about 35 minutes or about the same time it takes housekeeping to turn a room.*

**Q: Can you renew the mattress foundation or box spring?**

*A: We can quickly renew the foundation or box spring at a very low cost and it's a great way to keep your mattresses looking as fresh and clean!*

# *Frequently Asked Questions*

**Q: What happens to the old upholstery materials?**

*A: MRP makes every effort to recycle the worn materials whenever possible.*

**Q: What if the sides of my mattress are sagging?**

*A: For a nominal charge we offer side supports which are commonly used in higher end mattresses, but can be a quick and inexpensive way to regain edge support.*
