Members of the Youth Arts Group of Rural & Migrant Ministry (RMM) created the film after years of fighting for the NY DREAM Act and better futures for undocumented students everywhere. The professional-quality 20-minute documentary captures the pressing need for reform so that all young people in New York State have the chance to pursue a higher education, and their dreams.

Following the film we will have a panel and Q&A with representatives from the Youth Arts Group along with Hudson Valley Community Coalition, LatinoU College Access, Pace Community Law Practice, and the RSHM LIFE Center.
