Changing Challenges to Opportunities for Individuals with Developmental Disabilities!

The Tierra del Sol Foundation was founded 44 years ago by eight families who were searching for an alternative to institutionalizing their children. Today, Tierra del Sol helps more than 675 people each day across Los Angeles County overcome cognitive, physical, emotional or behavioral challenges resulting from developmental disabilities. Tierra has grown into a recognized leader in developing innovative, accredited services that enable adults with developmental disabilities to realize their greatest human potential. We offer a wide variety of educational opportunities for individuals to discover and share their talents and abilities with the community and their family.

We believe our community is stronger when all of its members are valued and appreciated. Through Tierra, people are supported to become gainfully employed, volunteer, and pursue post-secondary education, thus enabling them to fulfill their hopes and dreams and build the life that they want.
