

Call for Papers & Sessions

The **Polar Geography** and **Cryosphere** Specialty Groups of the Association of American Geographers call for papers for the 2014 Annual Meeting of the AAG under the following areas:

Polar Geography Sessions:

Sustainable Development in the Arctic

Issues pertaining to sustainable Arctic environments, cultures and economies amid climate change and globalization

Urbanization and Transportation in the Arctic

Examinations of development trends in and between Arctic communities

Impacts of Climate Change on Arctic Communities and the Environment

Observed and anticipated impacts of a warming climate on natural and human systems in high latitude regions

Northern Resource Geographies and Extractive Industries

Exploring the past, present and future of resource extraction in the Arctic and sub-Arctic regions and its role in local and global economies

Polar Geopolitics

Recent developments in the political landscape and governance of polar regions

Send abstract and PIN to stephenson@ucla.edu

Cryosphere Sessions:

Advances in Cryosphere Research

Recent developments in remote sensing and modeling methodologies for any aspect of the cryosphere

High Latitude Environments in a Changing Climate

Impacts of climate change on high latitude hydrologic, atmospheric, and terrestrial systems, including polar ice sheets

Mountain Ice and Snow

Glacier environmental change and impacts on water resources

Send abstract and PIN to venachu@ucla.edu

Session Organizers:

Scott Stephenson

Department of Geography
UCLA

1255 Bunche Hall
Los Angeles, CA 90095
stephenson@ucla.edu

Kelsey Nyland

Department of Geography
GWU

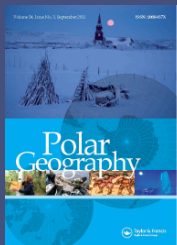

1922 F St., NW
Washington, DC 20052
knyland@gwu.edu

Vena Chu

Department of Geography
UCLA

1255 Bunche Hall
Los Angeles, CA 90095
venachu@ucla.edu

Call for Papers & Sessions

Other sessions will be considered if there are sufficient submissions. Graduate students and young scholars are encouraged to apply.

Please contact the organizers if you have any questions. If you wish to be included in one of these sessions, please register on the AAG website (<http://www.aag.org/>), and then submit your abstract and PIN to Scott Stephenson (stephenson@ucla.edu) or Vena Chu (venachu@ucla.edu). The deadline for submitting abstracts with a discounted registration fee is **October 23, 2013**. An extended deadline will be available through **December 3**.

Poster Session: R.S. Tarr Award for Student Research

The Polar Geography and Cryosphere Specialty Groups are pleased to sponsor the annual R.S. Tarr Award for student research on any aspect of cryospheric science. The R.S. Tarr award is given to the undergraduate or graduate student presenting **the illustrated paper** judged best in the special R.S. Tarr Illustrated Paper Session held during the 2014 Annual Meeting. The recipient of the R.S. Tarr award will receive a cash prize.

The illustrated paper must be completed and presented by the student; however, the paper can be coauthored by the student's advisor. Illustrated papers will be judged on their originality and contribution to cryospheric science.

This competition is in honor of Ralph Stockman Tarr who was an accomplished glacial geologist and geographer. He studied under W.M. Davis at Harvard. While teaching at Cornell he led numerous scientific expeditions to Greenland and Alaska.

To participate in the R.S. Tarr session please submit your abstract for an **illustrated paper** through www.aag.org and send your PIN to venachu@ucla.edu.
