

Amphibious Ship Reunions

A Directory Compiled By

Louis "Skip" Sander

Amphibious Ship Reunions

This is a complete guide to the reunions held by amphibious ships decommissioned in the 1960s and 1970s. The ship types it covers are AKAs, APAs, LSDs and AGCs. LSTs may be included at a later date.

It lists the ships by name, type, and hull number. More importantly, it contains a directory of their reunion contacts and a summary of their reunion histories.

Men from these ships are of an appropriate age to hold reunions, and most of them are doing so, or have done so until recently. These reunion groups are shrinking due to deaths, infirmities, and reluctance to travel, so it makes sense for them to partner with other similar ships.

Since 2012, my ship, the USS Rankin (AKA-103), has had great success in holding joint reunions with other AKAs. As I began looking for additional AKAs to partner with, people kept suggesting that I expand my search to other amphibious types. I followed their suggestions, and the result is the information presented here.

Table of Contents

Amphibious Ships by Name.....	2
Amphibious Ships by Type and Name	3
Amphibious Ships by Type and Hull Number	4
Reunion Contacts.....	5
Reunion Schedules.....	10

A page of links to these ships' websites and Wikipedia articles is online at <http://ussrankin.org/gators.htm>
