

Successful debut of Ignite Fauquier

Ignite Fauquier successfully set alight the local business community with its initial program to help interested individuals brainstorm solutions to various challenges. A large crowd gathered to hear a presentation by Scott Harlan, president of the Greater Warrenton Chamber of Commerce and owner of talk19 media. Harlan shared the challenges of spending time on the behalf of a client which was not designated as billable. The crowd gave a litany of solutions from time-tracking software to retainers.

The discussion broadened to time management issues for small-business owners and engaged attendees to further enjoy the advantages of attending Ignite Fauquier. The presentation was a success, and all are looking forward to the next program. Ignite Fauquier is held on the first Wednesday morning of the month at the Warrenton Visitor's Center, 33. N. Calhoun Street from 9:00am to 10:00am.
