

Interim Pastors Regional Gatherings

The Regional Gatherings of Interim pastors are a time when a Critical Incident is presented by one of the pastors. A critical incident is an incident which had significance for the person presenting the situation. It is often an event which raised questions for the participant about their response, belief, values, attitude or behavior and in some ways had a significant impact on the person's personal and professional learning.

A critical incident might include:

- an unusual condition
- a difficult situation
- a communication problem
- an interaction with someone which made a positive or negative impression
- an incident in which a feeling of inadequacy arose
- a time when a person felt confronted

These gatherings are a time for learning and support for those serving as Interim Pastors.
