There is increasing recognition that poverty is stubborn, entrenched, and damaging. There is also a growing body of evidence about what works to reduce poverty. Get ready for the September 16th and 17th release of Census Poverty data with CHN's annual webinar training.

Join expert **Jared Bernstein**, former top economic advisor for Vice President Biden and nationally known economic expert, to hear what the new data will likely show about poverty, income, and health insurance. You'll also learn how you can quickly find and use national, state, and local data – with plenty of time for your questions. The training is free and all webinar registrants will receive timely follow-up information before and after the data is released.

Featuring:

- Jared Bernstein, Senior Fellow, Center on Budget and Policy Priorities
- Deborah Weinstein, Executive Director, Coalition on Human Needs
- Ellen Teller, Director of Government Affairs, Food Research & Action Center
